

Weather Workshop

Basic Television Weather Workshop

is open for anyone who wishes to understand the graphic elements that are used on Television. You will also learn how to read weather maps, radar and satellite images. This workshop will help you better understand weather conditions that might affect your local area.

Jason D. Boyd, Meteorologist

As Mississippi's first Deaf Meteorologist, Jason has always wanted to help the deaf and hard of hearing communities. With much hard work and perseverance, Jason earned a Bachelor of Science degree from Mississippi State University with emphasis in Operational Meteorology. In addition to a full time career, Jason has continued to help the deaf and hard of hearing community through speaking workshops featuring weather/atmospheric science to help others grasp a better understanding of the weather reports on TV. He is a member of the American Meteorological Society and National Weather Association.
